

Farolas solares

Asfaltado

This architectural cross-section shows a building facade with a sloped roof. A red line highlights a section of the roof labeled 'Asfaltado' (asphalted). Yellow boxes and lines highlight three solar lighting fixtures labeled 'Farolas solares' (solar lights). The fixtures are mounted on a green surface, likely a green roof or a specific facade material. The building's structure is shown in grey, and the sky is white.
